

The Ultimate Reporting and POS Management Tool

Lighthouse enables you to view your POS reports and manage your entire POS system remotely. It eliminates the need for a back-office PC by allowing you to access the information on your POS system from any computer with an Internet connection. Lighthouse puts you in total control of your business, without being tied to your business!

ACCESS REPORTS ANYWHERE, ANYTIME

Obtain a top-level view of your business no matter where you are

- View merchant account reports such as processing statements, chargebacks and deposits.
- View POS reports such as sales and labor
- Enterprise reporting allows you to view data for multiple business locations
- Export data in various common formats

EASY ACCESS TO HARBORTOUCH HELP RESOURCES

Lighthouse offers easy access to Harbortouch support materials directly from your POS system

- Quickly access how-to demonstration videos and quick reference guides
- Communicate with the technical support department through the live chat feature

MANAGE YOUR HARBORTOUCH POS SYSTEM REMOTELY

Update your menu items, screen categories, modifiers, modifier categories and employees remotely

- Add, delete or edit items, categories or employees in real-time
- Quickly and easily change an item's name, description, price or quantity

ONLINE ORDERING

Enjoy the benefits of a fully integrated online ordering interface

- Custom branded online menu
- Menu changes and updates are automatically synced with your POS system
- Instantly receive online order notifications and/or send orders directly to your receipt or kitchen printer
- Build your customer database for marketing purposes
